Experience

Cognizant Technology Services

Sep 2023 – Present

Working currently as Fullstack Developer, Migration Engineer

Noida, Uttar Pradesh

- Developed Web Applications: Designed, developed, and deployed scalable web applications using modern full-stack technologies, including JavaScript, React, Node.js, and Express.
- API Development: Created and maintained RESTful APIs to enable seamless integration between front-end and back-end systems, ensuring robust data communication.
- Front-End Development: Built responsive and interactive user interfaces using HTML, CSS, and JavaScript frameworks, ensuring cross-browser compatibility and a seamless user experience.
- Back-End Development: Implemented server-side logic and algorithms to support web application functionality and enhance application performance.
- As a Migration Engineer, my primary responsibility is to facilitate the seamless transition of Microsoft 365 (M365) data, encompassing Power Apps, Power Automate, Power BI, and SharePoint sites. My role involves meticulously planning and executing migration strategies to ensure data integrity and minimal disruption to business operations. (T2T Migration)

Cognizant Technology Services

Feb 2023 – June 2023

Software Development Engineer Intern

Noida, Uttar Pradesh

- Hand-on experience in Java and Java enterprises. Worked on a project named EMS using spring MVC architecture.
